

2024 2SLGBTQ+ Meaningful Care Conference

Surviving and Thriving: Beyond Resilience

WHAT: Our mission for the conference is to center the lived-experiences of those accessing care, while challenging ourselves to uplift marginalized voices. As a part of that ongoing commitment, for 2024 we have partnered with Black & Beyond the Binary Collective (B3C). Black & Beyond the Binary Collective builds the leadership, healing, and safety for transgender, queer, nonbinary, two-spirit, and intersex (TQN2SI+) Oregonians with a focus on Black & Indigenous identities. We envision a future that gives power back to our communities, celebrates self-expression, and preserves dignity, and joy; a future that can center Black queer and Trans communities living fully liberated lives.

This conference is organized by communities to inform providers and healthcare systems on topics important to those with lived experience. For more information on the conference, please see our website: meaningfulcare.org

WHY: The day-long conference seeks to:

- Promote Two Spirit, lesbian, gay, bisexual, transgender, queer, intersex + culturally responsive health care and social services by uplifting marginalized voices and centering lived-experience
- Take an intersectional approach to addressing multi-level health disparities
- Share updated promising and evidence-based applications of 2SLGBTQ+ culturally responsive health care
- Develop and diversify networks of 2SLGBTQ+ culturally responsive health care and social service providers
- Move past equality and equity to center lived-experience, systems-change, and justice
- Be change-based, with community leading the way on challenging systems

Attendees will include medical care, social service, and allied health providers; city and county health officials; students of healthcare and social services; and a diverse array of LGBTQ+ community members. We are seeking a variety of beginning, intermediate, and advanced-level presentations and workshops.

WHERE: Portland Sheraton Airport Hotel, and online using the Whova conference platform and Zoom.
